

ENVIRONMENTAL POLICY

Glassbond (NW) LTD and subsidiary company Moulding Compounds Limited specialise in the design, manufacture and supply of lamp capping cement, high temperature cements and moulding compounds.

As an organisation, we are committed to the protection of the environment.

To help us to achieve this, we have implemented the BS EN ISO 14001: 2015 Environmental Management System. This is used as a tool to provide a framework for setting annual objectives and targets to enable a continual improvement of the environmental management system and to enhance our environmental performance.

Glassbond (NW) Ltd and subsidiary company Moulding Compounds Limited will comply with all applicable laws and regulations, promote waste reduction, resources and property conservation, environmental protection and prevention of pollution.

We will train employees to be knowledgeable about all environmental matters relevant to their work including the potential impacts of our activities, products and services

In order to communicate environmental awareness, we will fully integrate our environmental policy into the management of our business, whilst documenting, implementing and maintaining the policy, ensuring that customers, suppliers, contractors and the public are aware of our commitment and encourage such parties to at least equal our standards.

This policy is available to the public to view via the company website at the following address www.glassbond.co.uk.
